Dear Fellow TR2 Owner:

You are invited to join our TR2 Survivor List. There were 8636 TR2’s manufactured but did you ever wonder how many still survive today? With your participation, we can make this a truly comprehensive international list of TR2’s surviving today along with the details of their engine & body #’s, colors and options. We have collected the following information on over 1965 TR2’s that are known to survive today. Please note that the information you provide will be available to Triumph enthusiasts and historians at no cost on the VTR web site (www.vtr.org), under the TR2 model. For your safety we NEVER reveal your actual street address or city. If you prefer not to have your name or e-mail address on the www, just check the appropriate area below in which case your name and e-mail address will remain confidential and will only be used by us for administrative purposes. If you would like to participate in the TR2 Survivor List, please provide the following (for your TR2’s only). You may also use this form to notify us of changes or deletions.

Today’s Date: ________________ Vehicle Scrapped or Parted-out Approx. Date:________________
